

1000PDF

WHITE PAPER

FEBRUARY, 2023

INTRODUCTION

1000PDF is an innovative educational project that utilizes blockchain technology to connect authors, networkers, and book enthusiasts, promoting productivity and profitability within the crypto ecosystem. The platform aims to democratize knowledge and make it affordable and profitable for everyone.

The 1000PDF token, built on BSC and CORE blockchains, serves as the platform's utility token and enables users and team members to earn rewards for their efforts.

The token will be used for various functions such as purchasing books, payment on 1000pdf ecosystem, payment of tuition fee for 1000pdf university, 1000pdf wallet and for participating in presales held on 1000pdf launchpad.

HOW IS REVENUE GENERATED FOR 1000PDF ECOSYSTEM?

To be a member, you are required to pay a registration fee of \$4.

All registered members are given three books for free, namely;

1. 100 ways to monetize your website.
2. Fish Production
3. Ebook Writing like a Pro

You can use this knowledge for yourself or you can sell it to others.

The Registration fee is used for project development. Ebooks given to registered members can be use for knowledge development or can be sold to others voluntarily.

Trading Fee which covers both buying and selling will be used for project development.

Other ways people make money on the 1000PDF platform:

- **Selling Books**

You make money by selling your books if you're an author.

- **Referral Commissions**

You earn referral commissions down to your third generation of downlines.

Let's say Collins registered using your referral link, you'll get \$1. If Zoey registers using Collins' link, you'll get \$0.5 again, and if Sandra Registers Under Zoey, you'll still get \$0.25.

- **Forex Trading Course**

You get trained to trade Forex with the aid of indicators for free. This training has proven helpful to a lot of our members as they have done thousands of dollars in profits as a result of the training.

- **Access To A Moneymaking App**

We have uploaded an app on the site that will show you 40 ways to make money online

- **Free Course On Real Estate**

You also have access to a real estate course for free.

- **Free Cryptocurrency Course**

Lastly, you get a cryptocurrency training for free + access to a free crypto community.

TECHNOLOGY AND SYSTEM ARTICULTURE

1000PDF token is a BEP-20 token built on the Binance Smart Chain blockchain network and is entirely decentralized, which means there is no powerful central authority or single point of control. A unique committee of users is randomly and secretly selected to approve every block. Nodes are run by entities representing diverse backgrounds across many different countries.

Other Benefits Of The Binance Smart Chain

(a) PERMISSIONLESS

- Public & Open to All: Users do not need the approval of a trusted authority to use the Smart Chain blockchain. There is a single class of users and no gate keepers. Every participant can read every block and have the opportunity to write a transaction in a future block.

- Low Cost to Participate:

The Binance Smart Chain requires minimal processing power and modest IT resources to join. All online users who possess BSC tokens are automatically eligible to participate in block consensus.

(b) OPEN SOURCE:

The BSC node repository is open sourced and publicly available for anyone to audit, use, and build upon. The platform is founded on principles of transparency, inclusivity, and collaboration, and is maintained by a dedicated community with a shared vision of a decentralized, borderless future.

TOKENOMICS

Token Name: 1000PDF V2

Token Ticker: 1000PDF

Total Supply: 70,000,000

Token Type/Role: Utility Token

Organization Structure: Decentralized

Consensus Mechanism: Not Mineable

Algorithm: Pure PoS (BSC Blockchain)

Smart Contracts: Author, Bibliographers,
Token Holders, Advertiser.

1000PDF V2 will serve as a utility and a governance token for 1000PDF Ecosystem and all project coming after 1000PDF. Read our long term activities below to get insight of what our team will be working on in the nearest future. The token will be use for payment on 1000pdf.com for Buying Books, Exclusive Rewards and Staking/Yield.

TOKENOMICS

To maintain a strong tokenomics system, the platform has implemented a taxation system that includes a 1% auto burn, 1% auto yield, 1% liquidity component and **no wallet can hold more than 5% of the token at once.**

This will reduce the overall circulating supply, increasing demand, and rewards users for holding onto their tokens.

Additionally, every transaction made on the platform incurs a 3% buy tax and 5% sell tax, with 2% of the BNB generated used for buy-backs to balance prices and reduce the circulating supply.

5% of the supply is allocated towards marketing efforts.

The 1000PDF token has a total supply of 70,000,000 and includes ownership renouncement and liquidity will be locked.

TOKENOMICS TAXATION

1% Auto Burn

Every time you buy or sell on the platform, 1% of that transaction will be burnt off the supply, effectively reducing the overall supply and increasing demand for the token.

Additionally, we've added 1% Auto Yield.

1% Auto Yield

With this 1% of every transaction will be distributed to holders of 1000pdf token as BNB, providing you with even more rewards for holding onto your tokens.

1% Liquidity Component

We understand the importance of liquidity in a token, which is why we have also added a 1% Liquidity component to every transaction.

This way, even if a large transaction takes place, the project won't be affected and you can continue to trade with confidence.

TOKENOMICS TAXATION

Transaction tax: 1000PDF Token is built on strong tokenomics. Every 1000PDF token transaction incurs a 3% buy and 5% sell tax.

2% reflects as BNB in a wallet which will be used for BUY BACK.

We will use all the money in this wallet to buy back 1000pdf tokens from the market, thus balancing the price and reducing the circulating supply in order to increase the price
